Damian Fowler
Founder & Creative Director

I hope you've enjoyed this selection of work. I look forward to bringing my determination in business & love of art to your next project. I started Burlingame Wolf to forge relationships & help others grow their dreams while I grow mine.

I achieve this with a proficiency in the Adobe Creative Suite, with a specialty in Photoshop, as well as being proficient in Microsoft Office with a focus on Excel. For 15 years I have been designing in Photoshop or coding websites in HTML, most recently shifting focus on site development to the WordPress platform. These are carefully crafted skills that I hope to bring to our relationship and impart on any future employees I hire.
